

**Request for the Co-Hosts for
International Multidisciplinary
Conference on Sustainable Practices
(IMCSP-2022)**

- ✚ The central motive of the International Multidisciplinary Conference on Sustainable Practices (IMCSP-2022), scheduled to take place on the 12th & 13th February 2022 in Maldives is to address challenges associated with the effective dispensation of all the latest knowledge being generated in the fields of engineering and technology. With technology progressing at an accelerated pace, young scholars, students, and researchers in the early stages of their career are finding it harder than ever to keep up. This conference aims at helping them get up-to-speed with all the latest advancements.

- ✚ The idea of International Multidisciplinary Conference on Sustainable Practices (IMCSP-2022) is for experts, academics, technicians and scholars from universities throughout the world and industry to converge together and present contemporary research projects that inform and illuminate delegates about the progress being made.

- ✚ IMCSP-2022 to take place in Maldives encourages all researchers (young and experienced) to make their research findings known to the world by submitting relevant research papers, irrespective of what specific field in engineering and technology, they specialize in. The authors of the best research papers will be awarded suitably. They will have the incredible opportunity to have their research findings published in top journals and publications recognized and trusted all across the globe! This will not only help them gain the necessary exposure that they need to make their research work known in global scientific circles but also open the door to incredible opportunities for collaboration and conducting further research.

Theme of the Conference

The theme of IMCSP-2022, which is scheduled to take place in Maldives in February-2022 revolves around the effective distribution of the most recent advancements and knowledge from the fields of engineering and technology. This convention will collectively draw expertise from various areas of engineering and technology, to share the outcomes of their research and their newest ideas. The foremost aim of this conference is to combine multidisciplinary research in engineering and technology, to produce the best applications.

Participation in this exceptional conference will help delegates hone their skills and polish their ideas and strategies by meeting companions and colleagues. They will also have the occasion to meet specialists and high-level representatives, as well as share concepts and research findings with them. Delegates will be allowed to devise new networks to meet different personalities and get familiarized with the most modern tools accessible.

This convention is an unprecedented confluence of networking, recreation, education, and practice. This event will entail delegates to develop and challenge themselves with their ideas and proposals. The most promising research investigations will be distributed in prominent journals and publications.

Co-hosting this important event is an excellent way to showcase an active contribution it the global research .

Benefits to the Co-host:

✚ There are several benefits to co-hosting an International Multidisciplinary Conference on Sustainable Practices (IMCSP-2022)

- The co-host Institute/College/University benefits from the recognition that comes as a result of academic professionals visiting and learning from an institution's achievements. This recognition creates increased visibility that strengthens relationships with visiting members. Additionally, the co-host Institute/College/University has the opportunity to improve current programs or launch new initiatives with the expertise of attendees from different nationalities.
- 50% discount in conference fees for the faculties of co-host Institute/College/University.
- Free Publication in Google Scholar, DOI base Journals.
- Prominent recognition on all publications, announcements, and advertising
- Complimentary exhibit space for poster displays and/or outreach materials
- IMCSP-2022 will give an extra feather in the institutions cap, it will connect your institute with an eminent personalities and dignities of various nationalities.

Opportunities for contributing:

+ Co-hosts are encouraged to offer any types of support or assistance they are willing to dedicate to this event, large or small. Examples of suggested ways the co-host can contribute include:

- Formal sponsorship of overall event
- Welcoming speaker and/or invocation
- Assist with planning conference agenda, speakers, etc.
- On-site support (staff, logistics, etc.)
- Transportation to/from conference and/or local area
- Outreach to potential sponsors and vendors
- Deliver presentation(s) and/or poster(s) of projects
- Assist with promotion and sharing the conference information.
- Any other type of assistance (e.g. Financial, Management or Advertising) is welcomed.
